

Professional Range Instruction Simulator Suite™

QuickRange® LIVE FIRE TRAINER™

"Safe, certified, modular shooting range."

Modular Live Fire QuickRange

Advanced Interactive Systems, Inc. offers QuickRange - the ultimate, state-of-the-art, modular shooting range. Install with PRISim Suite® LiveFire Trainer to create the most realistic training experience and combine live fire with interactive video-based and CGI scenarios.

The off-the-shelf purchasing process, versatility and portability of QuickRange make it the ideal shooting range. QuickRange is the ultimate solution to having a high quality shooting range - within a few months, not years.

PRISim Suite LiveFire Trainer allows the utilisation of all PRISim Suite software in a live fire environment. All aspects of the trainee's interaction are recorded by the software.

QuickRange is an ideal training environment for marksmanship, tactical decision-making and qualification training.

Two-lane QuickRange

Key Features

- Modular, expandable and reconfigurable live fire range can be placed either inside a building or standalone with minimal site preparation
- Soundproofed and safety buffered with 100% ballistic containment
